Roche Point of Care

INR Log Book

The key to successfully monitoring your warfarin therapy is consistent, diligent testing at the frequency prescribed by your doctor and tracking of your INR values (or test results) with the CoaguChek® Vantus system.*

Use this form to keep an ongoing record of your test results and warfarin dosage, and bring it with you to your next doctor's appointment. It's also a good idea to have it on hand when reporting your results.
